MTI NEWSLETTER - APRIL 2022

Desert Aire Presents the New ExpertAire LCQ

Desert Aire now offers a packaged pool dehumidification unit in their new model LCQ. The unit ranges from 5 to 15 tons and has options for electric, gas-fired, or hot water auxiliary heat. This new packaged option simplifies installation and is an excellent choice for medium to large sized pools.

See introductory video for full features and specifications

Church Saves \$100k on HVAC Ventilation Metal Duct Replacement

The perpetual showering of corrosion and paint flakes from the old metallic ducts was almost as painful as the initial \$100,000 price tag to replace the system. Then FabricAir offered a solution that created an exquisite indoor environment at a fraction of the cost.
